ROSE UNIACKE LIGHTING

Rose Uniacke is an architectural and interior designer, antique dealer and furniture designer who has garnered a world-class reputation for her signature aesthetic that is unrivalled in its quiet simplicity, sensitivity, and sophistication. Rose originally trained as a furniture restorer, gilder and specialist in paint and lacquer before becoming an antique dealer. She has since become one of the most respected interior designers in the UK and runs a gallery in Pimlico where she sells antiques, as well as her own pieces.

The 2010 launch of Rose Uniacke Editions was an organic evolution. While designing her home, Rose was often unable to source the specific furniture and lighting she had in mind, so she began to sketch and commission these items for her own use. When clients asked for similar pieces, it was a natural progression for her to produce them. Elegant, functional and distinctive; Rose Uniacke Lighting is beautifully and thoughtfully designed and made by the finest contemporary craftsmen. This ever-growing range of decorative ambient lighting is built to last; the antiques of the future, to be used for generations to come.
