SHEER WOOL IN COBWEB

£80

Code: 6946

Application: Curtains

Composition: 94% Wool / 6% PA

Woven in the UK, Cobweb is a textured custom weave wool sheer inspired by antique sheers woven on a hand loom. The combination of contrasting yarn thicknesses paired with a loose weave helps achieve a relaxed artisanal texture and warmth; perfect for drapery. A CFA is recommended for this fabric as the wool is undyed; slight natural variations in the wool can therefore be expected.
