WOOL IN GROOVE

£138

Code: 6948

Application: Upholstery, Curtains, Soft Furnishings

Composition: 96% Wool 4% PA

Martindale: 20,000

Woven in the UK, Groove provides texture and warmth through the chunky but compact grooves created using a furrow weave. A great choice for upholstery, or impressive heavy curtains. A CFA is recommended for this fabric as the yarn is undyed; slight natural variations in the wool can therefore be expected.
