## TEXTURED LINEN IN BEACH

£143

Code: 7054

Application: Upholstery, Curtains, Soft Furnishings

Composition: 100% Linen

Martindale: 40,000

Stonewashed to provide softness and fluidity to the linen, Beach subtly adds interest and texture while also remaining high performance at 40,000 rubs. An understated texture in contrast to our other textured linens. A CFA is recommended for this fabric as the yarn is undyed; slight natural variations in the linen can therefore be expected.

See Cameo for the same weave in white.
