

LINEN WOOL BLEND IN MARSH

£242

Code: 7972

Application: Upholstery, Curtains, Soft Furnishings

Composition: 55% Linen, 35% Wool, 10% PA

Our Linen Wool Blend category combines the texture of wool with the freshness of linen to provide an earthy, textured yet relaxed heavy weight fabric at 1000g/m². Marsh is piece dyed, which allows the wool and linen fibres to absorb the dye differently, giving a subtle depth of colour. The combination not only gives visual impact, but is equally impressively durable with a Martindale of 100,000.

Martindale: 100,000
