

TEXTURED WOOL IN NUBBLE

£341

Code: 8761

Application: Upholstery, Curtains, Soft Furnishings

Composition: 87% Wool, 11% Linen, 2% PA

Woven in the UK, using British and European yarn, Nubble is inspired by the play of both composition and colour between warp and weft often achieved on a hand loom. The result offers a textured and characterful boucle tweed that still retains an artisanal quality. The highly textural surface is brought to life by a well-considered colour combination. Ideal for upholstery (35,000 martindale).

In keeping with the company ethos to pursue the use of ethically sourced and sustainable materials, the warp for this fabric contains recycled wool.

Martindale: 35,000

BS 5852: Part 1: 1979 Ignition source 0 (Cigarette)
