

R

'HALO' LIGHT BULB

£27

Code: HALOLB

ROSE UNIACKE EDITIONS

Our light emitting diode is sculpturally unique by way of a glowing copper filament ring (halo) surrounded by a traditional clear glass globe. The dimmable 3.2watt lamp emits a warm white ambient light and is the equivalent of a 40w incandescent. This lamp uses 80% less energy and lasts 10 times longer than a standard incandescent bulb. The lifespan is approximately 15,000 hours.

E27 Edison-screw, CE / UK only

Dimmable LED

Technical Information:

Clear Glass LED Globe Lamp with round copper filament (Light Emitting Diode)

Warm White/2250K

E27 Screw-in lamp base

3.2Watt/240V

-

Instant Full Light

Dimmable with selected dimmers

Dry locations only

Efficiency Class G

-

Lamp Photometric Code 505.413

0c-40c Operation

100,000 Switching Cycles

CRI >89 (Colour Rendering Index)
